Biography

Louis Moncada is the SM-6 Program Director, Naval Weapons Systems at Raytheon Missile Systems. Previous assignments include Deputy Director, AMRAAM, Program Manager, AMRAAM C7 Missile Development.

Louis joined Hughes Aircraft Company in 1982, as a member of the technical staff in the Radar analysis engineering organization. Since then he has served as an engineering section lead, worked and managed numerous advanced programs, and lead the AMRAAM C7 program as the Software and Analysis Integrated Product Team manager, deputy and program manager.

In his current position, Louis leads all activities associated with the SM-6 missile. These include the ongoing development program, technology and future spiral efforts, and adjacent market development.

Louis has earned a Bachelor Degree in Electrical Engineering from the University of Illinois. He has also earned a Masters Degree in Signal Processing from the University of Southern California. In addition, he holds a Master of Business Administration from the University of Arizona.

Raytheon Company is an industry leader in defense and government electronics, space, information technology and technical services. Headquartered in Waltham, Mass., Raytheon employs 73,000 people worldwide.
