

Biography

Ed Binney is the Chief Information Officer (CIO) of Raytheon Australia.

In this role, he is responsible for the strategic leadership and direction of Information Technology (IT) in the provision of infrastructure, systems and services that underpin internal processes and enable program delivery to our customers.

Ed has an extensive IT career of more than 25 years across multiple industries including; oil and gas, food manufacturing, FMCG, travel, financial services, technology research and higher education. He has held executive IT positions since the mid-nineties. Before that he had hands-on experience with software development, hardware and network deployment, and project management.

Prior to joining Raytheon in 2008, Ed ran an independent consulting practice servicing commercial and education sector clients delivering advice including IT strategic reviews. Before that he was CIO of the University of Sydney, CIO of Ideas International, IT Director Goodman Fielder, and IT Director Thomas Cook Asia Pacific.

Ed is a graduate of the University of Technology Sydney, with a Bachelor of Applied Science (Computing Science) Honours Degree. He also completed a Business Sub-Major in Organisations and Management. Ed represented Australian Universities on Sun Microsystems' global academic advisory council 2004/2005.
