

Biography

Tony Williams is Director of Program Leadership for Raytheon Australia.

Tony's responsibilities include: Program Performance across the organisation, Risk Management, certification and training of Program Managers and maintenance of Program Management process excellence.

Tony joined Raytheon in May 2007, he initially held positions in the Strategy and Business Development organization, and subsequent to that was General Manager Base Operations with responsibility for the programs focused on: the Australian Intelligence Community; surveillance systems; technical base operations; and provision of specialist services to Defence, Federal and commercial organisations.

Prior to joining Raytheon, Tony had spent 25 years in the Defence industry, both in Australia and Europe. Initially in a number of engineering roles, working on a wide variety of multi-national aerospace projects for BAe Systems.

After attaining the position of Chief Systems Design Engineer, Tony moved into Commercial and General Management, with responsibility for BAe Systems Global Counter-trade obligations. After a move to Australia, Tony held further senior management positions with BAe Systems including Project Director AEW&C. In 2001, Tony joined Tenix Defence as General Manager – Aerospace.

Before returning to the Defence sector with Raytheon Australia, Tony held the position of Managing Director, Innovation Group Australia, an Insurance Outsourcing and Software Solutions provider.

Tony is a graduate of the John Moore University (Liverpool, UK) and has an honours degree in Applied Physics. He is a Chartered Engineer, a Chartered IT Professional, a Certified Practising Project Director and holds an Advanced Diploma of Project Management.
