

## Biography

Craig Wilkinson, General Manager Aerospace for Raytheon Australia, has been an employee of Raytheon Australia following the acquisition of the Honeywell Avionics Business Unit contract in 2003.

Craig started at Honeywell as a Graduate Electrical Engineer in 1988 and has over 20 years of Industry Experience. He has performed in a number of different roles during this time including Project Management, Engineering Management, and Executive Appointments (Regional and Country manager roles). He has extensive experience across the complete life cycle of a project including Business & Solution Development, Contract Negotiations, Project Design and Acquisition, and Support Services.

Craig has Bachelor of Engineering – Electrical (Queensland University of Technology), a Masters of Business and Technology (University of New South Wales), and is also recognised as a Six Sigma ‘Black Belt’ by the US Six Sigma Academy.

Craig was the inaugural Visiting Industry Fellow at the Australian Defence College, Canberra, in 2009.
